5/3/2004

To whom it may concern,

My company has been working with Complete Business Systems since October of 2001. We started out with a copier/fax combination machine which worked wonderful for us for quite some time until we out grew the machine. Our representative at Complete Business Systems came out and assessed our needs and put us into a copier that fit our growing needs as well as a fax machine to do the same. The machines are very reliable, however, we do have occasional break downs, but when we do the technicians are out VERY quickly, and are always VERY professional.

The type of people that come out to my business, is very important to me. I have to feel that if I should need to leave them alone, I need to be able to trust them as I work out of a home office.

I have also had Complete Business Systems build our computers, I receive support when ever it is needed, and would NEVER buy from another computer distributor, as I feel that Complete Business Systems has stood behind everything we have bought or leased from them 110%.

We are very pleased with their services, and would highly recommend them to any company in the market for office equipment.

Sincerely,

A handwritten signature in cursive script that reads "Kim Rendler". The signature is written in black ink and is positioned above the printed name.
